Some reflections from the attendees at the Wauconda, IL Earth Whisper Training on July 16/17

"I realize now that it was absolutely the right choice to take the "Earth Whisper" workshop. I believe deeply that if I had not attended, it would have greatly taken me off course of my true path and purpose in life. I feel deeply grounded and rooted on my journey of evolution to my true Self and to my life's purpose of being an Earth Whisperer as a result of attending this workshop. My heart has been reconnected and I feel alive again as a result of it."

Tammie R., Fox Lake, IL

During one of the meditations with the Earth, I was transported to my own yard where I had been working and planting for the past 2-3 weeks and a childlike being, a little girl, came out to play and frolic with me... as if to say.. "I love what you've done".

All during the prior weeks of working in the yard I was wondering whether the Earth would be aware of such a little corner of her world, or if it would make a difference to her... and I would say, that was clearly my answer... Yes, she certainly did and she wanted me to know it did. What a joy!

Julie T., Carpentersville, IL

You created a time unlike any other this past weekend. On reflection, the pearl dropped into the waters of our lives continues to ripple waves of wonder and eye-opening awe as I revisit many of its astonishing moments.

It also shed light for me on what the magic of you both are promoting: the awakening of us all to the raw, pure, magnificence of WE passionate creators.

Jim C., St. Louis, MO

A Call To Awaken the Ancient Earth Whisper Way...

Humans and Earth once lived in accord. Deep respect, love, communication and understanding were the qualities of this human-Earth relation. These human ancestors possessed extraordinary Earth talents abilities, the echo of which continues to be heard in Aboriginal cultures today. We may have forgotten their talents but they are embedded in our memories and genetics.

Our ancestors knew how to find water and food in deserts and remote mountain areas. They could sense Earth events before they arrived. They lived in complete confluence and reverence with the Earth. When agriculture began and humanity built technological and physical barriers to control nature, human beings lost their talents and deep Earth respect. But with today's volatile weather shaking our cities, dismantling our physical barriers and burying our modern way of life under rubble, floods, fire and ash, **the call to return to an ancient human-Earth accord and reawaken our latent Earth talents has a new urgency.**

Forgotten understandings that provide the mastery to activate those ancient talents and access the deep wisdom are currently arriving in the world. **They hold the promise to rekindle our memories, awaken our talents and inspire a new human-Earth accord.** That is the purpose of this Earth Whisper Training -Level 1: Awaken Your Earth Talents.

Did you feel the 9.0 Earthquake off Japan's coast before it set off the tsunami? Were you having dreams about tornadoes the week before the mile-wide tornado ripped through Alabama? Did you get "pushed" by the Japanese after-shocks long after the Big One? Are you having dreams of people crying but don't know why? Do floods, hurricanes, tsunamis and solar flares seem more personal, impactful and important than ever before? Are you wondering whether you have to sit on the sidelines witnessing massive Earth events helplessly or whether you actually possess the ability to assist the Earth and humanity in this turbulent time of rebalancing? If such questions beckon you and make you wonder, something deeper may be stirring. **Your Earth Guardian mantle may be summoning you.**

Earth Whisperers is our name for the individual who can sense Earth events before they occur and affect their outcome. Earth Whisperers have an innate, latent ability to talk with the Earth, make rain, create ozone, send life into the Earth's core, pull negative human thought debris out of the oceans and "hear" in-coming Earth events like earthquakes and tsunamis before they arrive. One way to recognize an Earth Whisperer is by their choice of parents. Earth Guardians can trace their genetic lineage back to a time when their ancestors possessed these extraordinary talents--abilities that were once loved by the Earth. **These forgotten specialties of today's Earth ambassadors are gravely needed again.**

Why the Earth Needs Your Talents NOW...

In this life-changing training, you will learn a new way of living, step onto the path of the Earth Whisper Walkabout and join others like yourself to uncover and empower your own Earth talents. **This is a call to create a new ambassadorship for supporting the Earth and humanity as she rebalances the world.**

What you will learn...

Presented by Rennie Davis and Kirsten Liegmann, this two-day training is for the individual who feels ready to pull all the pieces of today's confusing Earth events into one clear picture. In this session, you will learn, practice and discover for yourself...

- What Earth talents are in your genetic memories
- How to awaken your talents
- How to talk with the Earth
- Why solar flares are currently peaking
- How to move the path of tornados with your mind
- How to hear Earth events before they occur
- How to sense an ice age before it begins
- What will really happen on the Solstice 2012
- What is causing global warming (not what you think)
- How to experience the Earth Whisper Way
- What stones and crystals best serve the Earth Whisperer
- Why is ozone depletion the most urgent Earth challenge
- How to master the unconscious mind that blocks your Earth Whisper service
- How not to be pulled into fear of the Earth's volatile weather
- What are the principles that guide Earth Whisperers
- What are the practices that empower your Earth talents
- What form of alchemy and magic best works for you
- Meditation to awaken your Earth talents
- Meditation to make ozone out of your own body
- Meditation to talk with the Earth
- Bliss traveler meditation to experience the pure joy of the Earth Whisper Way
- Why this unique information comes to you now
- Many more timely and fascinating understandings, tools and practices
